

Welcome Stephanie Ross, MSN, FNP-C!

Nurse Practitioner Serving TSC/LSC

My passion is preventive health, and my goal as a provider is to help all my patients have the best quality of life possible.

I am an AANP board-certified Family Nurse Practitioner and have been practicing for 3 years. I obtained my undergrad degree at Florida Hospital College in Orlando, FL and completed my master's through Indiana State University. Prior to becoming an NP, I worked as an RN in the acute care setting in a cardiac unit, and then as an RN in the emergency department. In my spare time, I enjoy running, hiking, gardening, cooking, and spending time with my friends and family.

When you were a kid, what did you want to be when you grew up?

Originally, I thought I wanted to be a physician, but by the time I got to college, I realized that my favorite healthcare providers that I had seen were actually Nurse Practitioners. So, that's what I set my goal for.

What is your favorite place in the world?

Either at home or on a beach with a tropical beverage.

If you were an Olympic athlete, what sport would you be competing in?

I am not actually a sports fan at all, but I am an avid runner. So, I suppose running.

What would you say is your proudest moment?

So far, it was the day I graduated with my master's degree and passed my boards to become a Nurse Practitioner.
